## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Mitsutake et al. U.S. Patent 6,788,985 does not expressly disclose a method of managing work in progress wherein each small lot size substrate carrier is adapted to transport fewer than 13 substrates. Mitsutake does not expressly disclose maintaining the work in progress level by increasing the average cycle time of low priority substrates and decreasing the average cycle time of high priority substrates. The allowability, at least in part, resides in these facts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
